#MenteeSpotlight

Upon reflecting on her first six months in PMP, [Rozan Al-Khazendar](#) noted that she did not realize how much the program would give her. She feels that her Mentors provide her with more than basic professional advice. She calls them when she has a problem, and they want to help her.

With their guidance, Rozan established a [#fashion](#) line and began offering new [#digitalmarketing](#) services. Read more about her journey below!

PMP Palestinian Mentorship Program

I am the founder and CEO of Rozza Designs Company, an experienced entrepreneur, and a Graphic Design trainer. PMP offered me a great opportunity to be matched with international, professional mentors. Before the program, it was difficult for me to prioritize. My Mentors helped me develop planning and organizational skills. Now, I am establishing a new Fashion Design line at Rozza Designs. In addition to expanding my product lines, the Mentors widened my professional network, which will benefit me in the years to come!

Wellcome To Fashion Atelier

Butterflies Fashion Atelier

is a luxury fashion house conceived in 2020

by Rozan AlKhazendar

This wonderful design reflects the history of the Palestinians, as an innovative design appears at the bottom of the dress which shows the shape of the Old Palestinian houses, also the dress shows the ways of old roads in Palestine. This design means that the Palestinian woman always preserves and represents the history of Palestine.

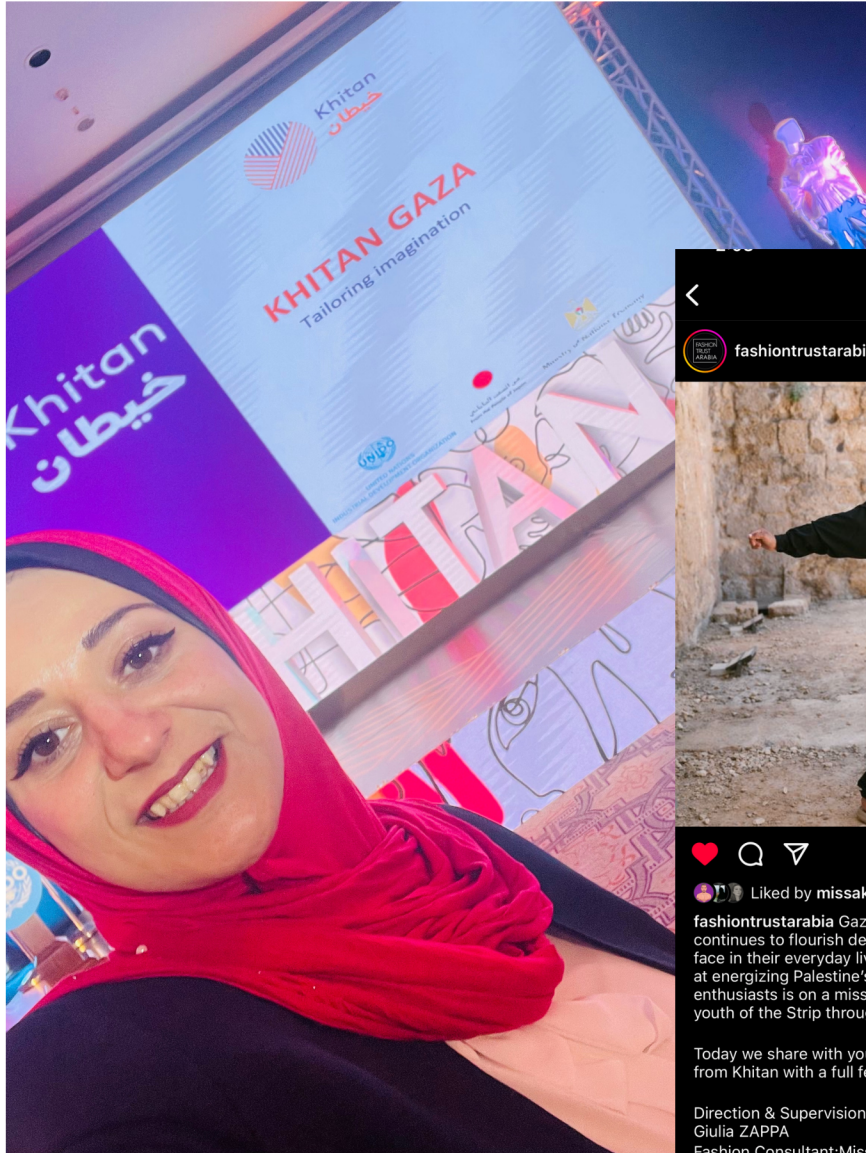

This unique design reflects the nobility and originality of the Palestinians, as an innovative design appears at the bottom of the dress which shows the shape of the Old Palestinian houses, which are the treasure and history of our struggling Palestinians. This design means that the Palestinian woman always preserves and represents the history of Palestine.

This luxury design has an story, it tells us "I see You in everything" which refers to Palestine, so it reflects the map of Palestine in the right and the design of shoulders taken from the Kufiya design.

This design reflects the embroidery pattern of Gaza city, showing the first stitch of Gaza city according to the map of embroidery patterns of Palestine. Gaza is characterized by the use of colored fabrics and colorful embroidery.
